

Declaration of Performance

Helifix hereby declares that the product

DryFix (80)

Conforms to
BS EN 845-1

Intended Use

Symmetrical stainless steel mechanical remedial wall tie and general pinning technique.

Essential Characteristics

Compressive Load Capacity	1020N*
Tensile Load Capacity	1800N* at 70mm embedment over a 110mm cavity
Water Shedding Capability	Resistant
Durability	Material reference 3, Steel grade 1.4301/1.4401
Dangerous Substances	None

**Helifix recommends an on-site test is carried out in remedial applications where the fixing substrate is often variable/uncertain.*
